I recommend pulling the item until we get these details worked out.

Chief –

In preparation for the presentation to Council, would you like me to schedule a conference call for you and I, with Jesse Mund, the Flock representative? See the below email.

Good Morning Sir,

I am happy to be available for questions on the 16th. I have marked it out on my calendar. I also have a short slide deck I use when presenting to city council that could help you prepare for what the public comment questions typically look like. Would you like me to send it to you? I am also happy to discuss it with you as I have addressed quite a few public comments at city council. Most is really what is Flock used for and NOT used for and around retention and data sharing.

Hope that helps. Call me anytime if I can help.

Best Regards,

Jesse Mund

Would you be able to save that date and be available by Zoom during the question and answer period? Any advise on preparation for public comment?

I have asked my deployment specialist, who is a 10 year law enforcement veteran who helped deploy cameras in one of our most saturated counties in the U.S, to put together a strategy to best utilize the 31 cameras we are considering. He typically asked for a couple things:
>
> 1. Is there any crime mapping data you can share

2. Is there a specific location/locations to focus on

These 2 bits of information are enough to get him started with some ideas and really put a plan together to maximize the impact of your deployment.

I would
